COVID-19 POLICIES

2020 has been trying for everyone to this point and if the scientists' predictions come true the remainder of the year will only result in COVID-19 increases in pockets of the country. Vohne Liche Kennels has always prided itself on being proactive in the training world and now we are stepping up with regard to the COVID pandemic.

VLK has been largely unaffected by COVID and we believe that is because we have been proactive in all the common sense approaches and followed the recommendations of the experts. For the above reasons, in an effort to remain safe and prudent VLK will require the following for the remainder of 2020.

COVID-19 Mitigation:

- The entrances to the VLK offices will remain locked with sign postings to direct visitors and students to call the office to gain access. That number is 765-985-2274. Once the person requesting entry identifies themselves and the reason for entry, a staff member will meet them at the door, take their temperature and ensure they have a mask.
- VLK will continue to ensure social distancing, mask wearing and hand washing to provide the most effective strategies for our staff, students and visitors against the virus.

Student Dormitory Use:

- Vohne Liche Kennels developed the dorms at Grissom Air Reserve Base for student use during courses to enhance the bonding between and among students and canines. Until COVID-19, this was highly recommended but not required. It is now required of all students attending training at Vohne Liche Kennels.
- We apologize if this causes any inconveniences however the safety of all our students and staff is paramount.
